

## Staying Safe During COVID-19

Safety of our staff and clients is extremely important to us. So we have decided to apply installation precautions.

### On the Day

Our Fitters will arrive at the designated place of installation. Our appointments usually start in the morning, this gives our fitters enough time to fit the goods in one day. By doing this, we ensure that our installers do not have to visit your house.

## OUR INSTALLATION PROTOCOL DURING COVID-19 SITUATION

Our fitters will arrive wearing the correct PPE.

Installers have been split into two teams which always work with the same people and have a designated van and tools.

Where possible you should keep people 2 metres apart. If this is not viable, keeping 1 metre apart with risk mitigation is acceptable.

Our Vehicles are regularly cleaned using gloves and antibacterial cleaning products, with emphasis on handles and other areas where passengers may touch surfaces.

## WHAT DO WE NEED FROM YOU

Kindly please, consider ways to maintain and increase the supply of fresh air, for example, by opening windows and doors (unless fire doors).
