OPEN THE DOOR *to Luxury world*

Black Steel Doors provides everything you could wish for in a door and more: high-quality materials, flawless functionality and endless customization options.

Company STORY

Black Steel Doors was established in 2018 by a young entrepreneur Ewelina Wojciechowska. A woman full of passion, creativity, and strive for success. Ewelina was raised in a family where running a business was not only a job but also an opportunity to meet wonderful people and fulfill dreams. She started her journey at her father's company as a project manager where she learned most of the qualities that she uses to run her own company today. Blessed with the opportunity to meet influential people she was able to spot a huge gap in the market for high-quality steel products. Her attention to detail and interest in interior design allowed her to believe in herself and that's where it all began...

As of today, Black Steel Doors is very proud to be one of the leading suppliers in the UK of luxury interior and exterior steel doors and windows. Our products reflect the dedication to quality and innovation. From architectural designs to bespoke manufacturing services, Black Steel Doors provides a truly tailored experience for you.

Internal B20

SLIM PROFILE

Minimal Steel | Maximum Glass

Unique to Black Steel Doors, we have carefully designed our Profiles to create some of the slimmest sightlines in the industry, giving you a sophisticated, clean look that maximizes natural light

Variation of Opening Systems

Choose the perfect opening style to suit your needs. Whether you're looking for French Doors, Sliding Doors, Bi-Fold Doors, or Pivot Screens, our Internal slimmest B20 Profiles are available in any design you could wish for.

Fully Customizable

Express your creativity through every element of our bespoke steel doors. From the door handles and bars to the glass, size and colour, every last detail is fully customizable.

Internal **B20** SINGLE DOOR

Our B20 Single Doors offer all the space-saving functionality and creative flexibility you could ask for. By combining this naturally compact design with our ultra-slim yet strong steel frames, we have created a gorgeous design that maximizes daylight while using as little room as possible.

Did you know? Single doors are the most popular style in the industry, with unlimited customization options in a compact, unobtrusive design.

Maximum Width:

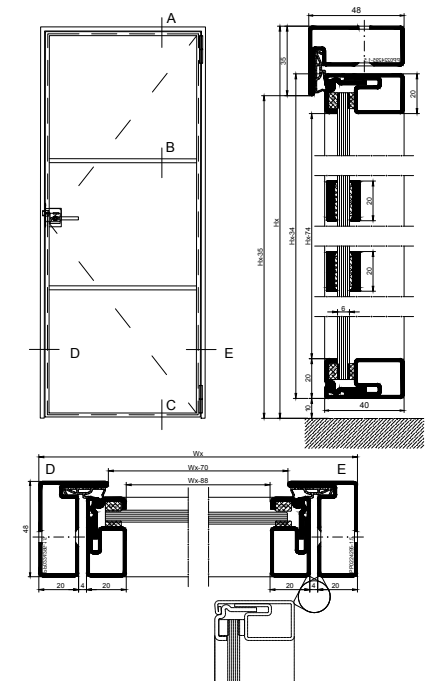

1000 mm

Maximum Height:

3000 mm

Handle Options:

STANDARD / PREMIUM

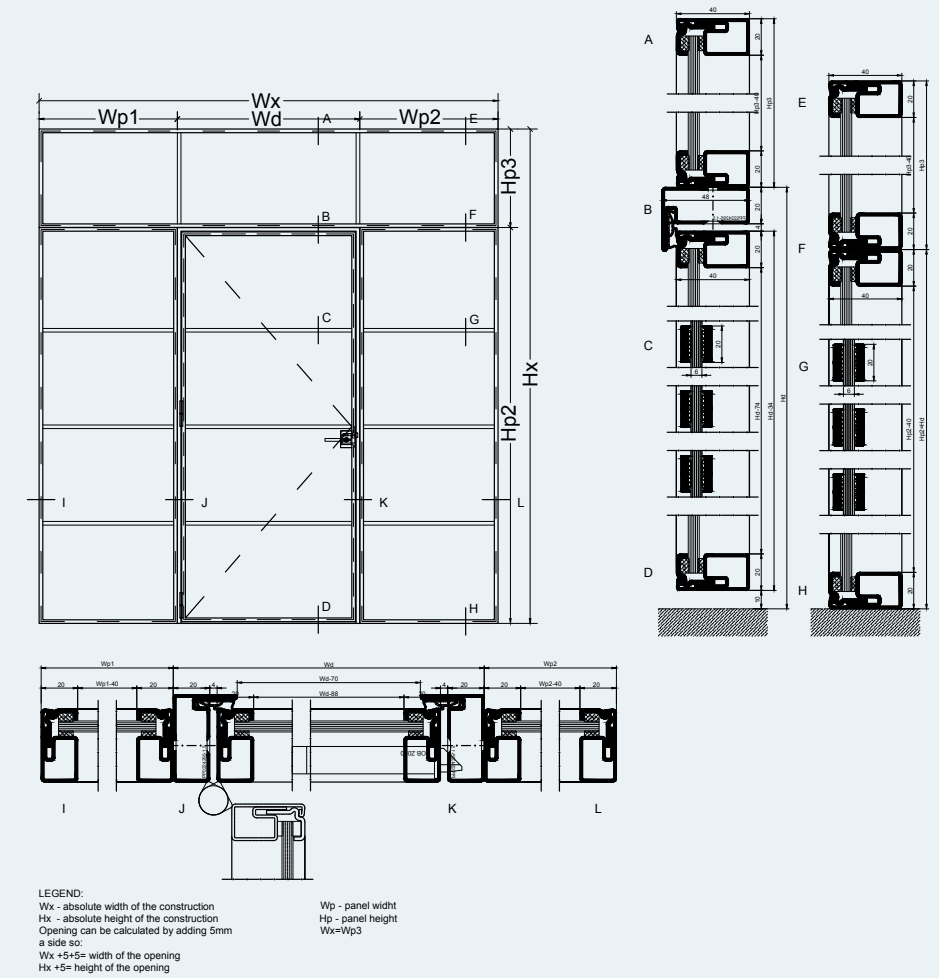

LEGEND:
 Wx - absolute width of the construction
 Hx - absolute height of the construction
 Opening can be calculated by adding 5mm
 a side so:
 Wx +5+5= width of the opening
 Hx +5= height of the opening

Internal **B20** SINGLE DOOR WITH SCREENS

With the unlimited options of design, screens allow to open up even the biggest spaces letting in the natural light flow between rooms. Often incorporated to design a seamless transition and to achieve spaciousness. With advanced technology, steel is robust enough to support the biggest glass panes.

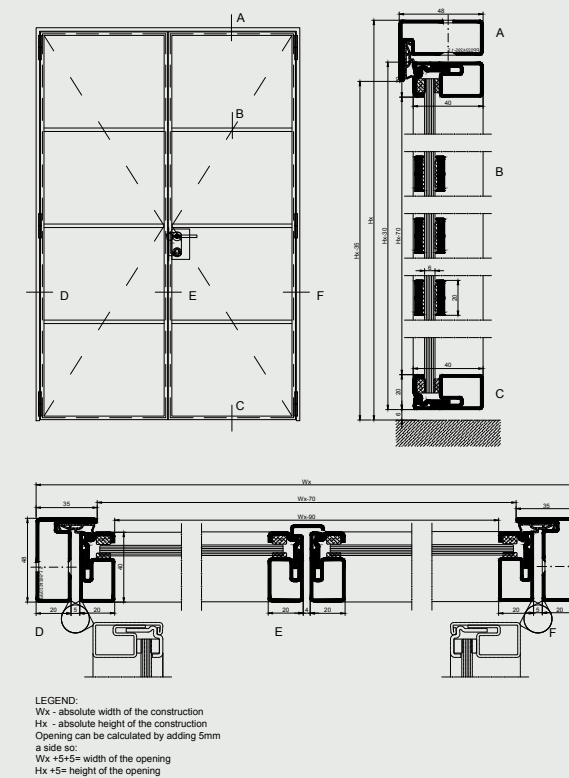

Internal B20

FRENCH DOORS

Take the classic “je ne sais quoi” of French Doors to a new level of luxury with our Internal B20 design. These strong yet lightweight steel frames provide some of the slimmest sight-lines in the industry, creating a seamless transition between rooms and maximizing the dispersion of daylight.

Did you know?

French doors were first popularized in 17th century France to let more light and air into dimly-lit homes.

Maximum Leaf Width:

1000 mm

Maximum Height:

3000 mm

Our signature B20 Bi-Fold Doors are truly one of a kind. With a beautiful industrial style and sleek yet durable steel frames, these unique doors provide unmistakable luxury and unrivalled functionality. By combining the robust multi-panelled design of bi-fold doors with unbeatably strong steel frames, they are durable enough to replace an entire wall, opening up your home to a world of daylight and spaciousness.

Did you know?

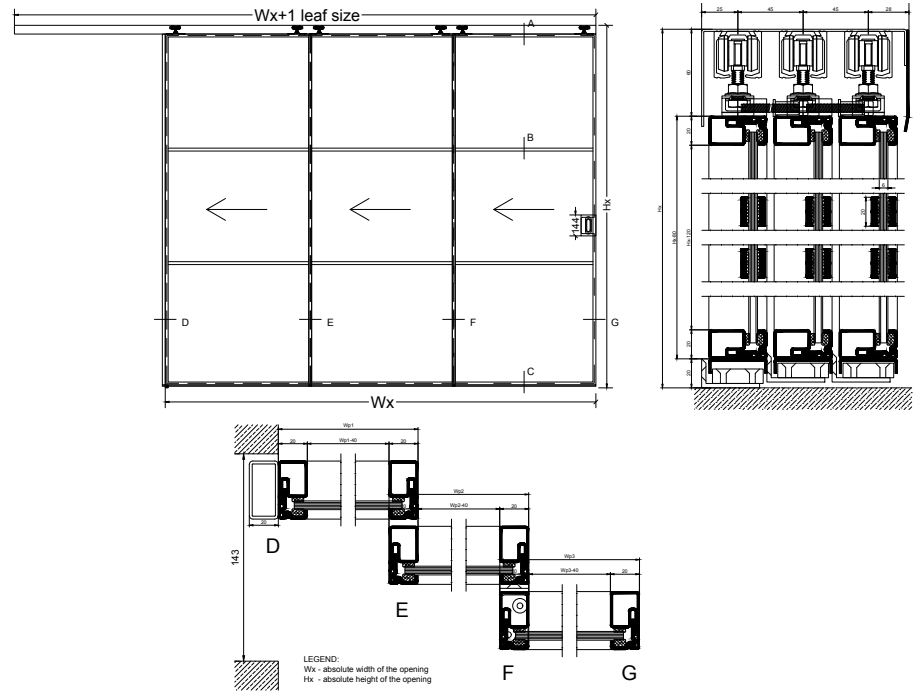

Black Steel Doors is the first company in the UK offering Bi-Fold system. Our Bi-fold doors are now becoming the biggest trend in the industry with irresistibly stylish contemporary design and expansive, light-enhancing glass panes.

Types of GLASS STANDARD

Clear Glass is one of the most common varieties of glass used to let maximum light pass between rooms. The clarity adds dimension and it can transform the space and pull the overall visual appeal of the interior space harmoniously.

Types of GLASS PREMIUM

The range of premium glasses offered by Black Steel Doors works as a beautifying element to your home interiors. Its ability to achieve stylish patterns and obstructed visibility caters to the privacy element in spaces like bathrooms or bedrooms. Glass can enlighten your spaces uniformly due to the irregularity of the glass surface.

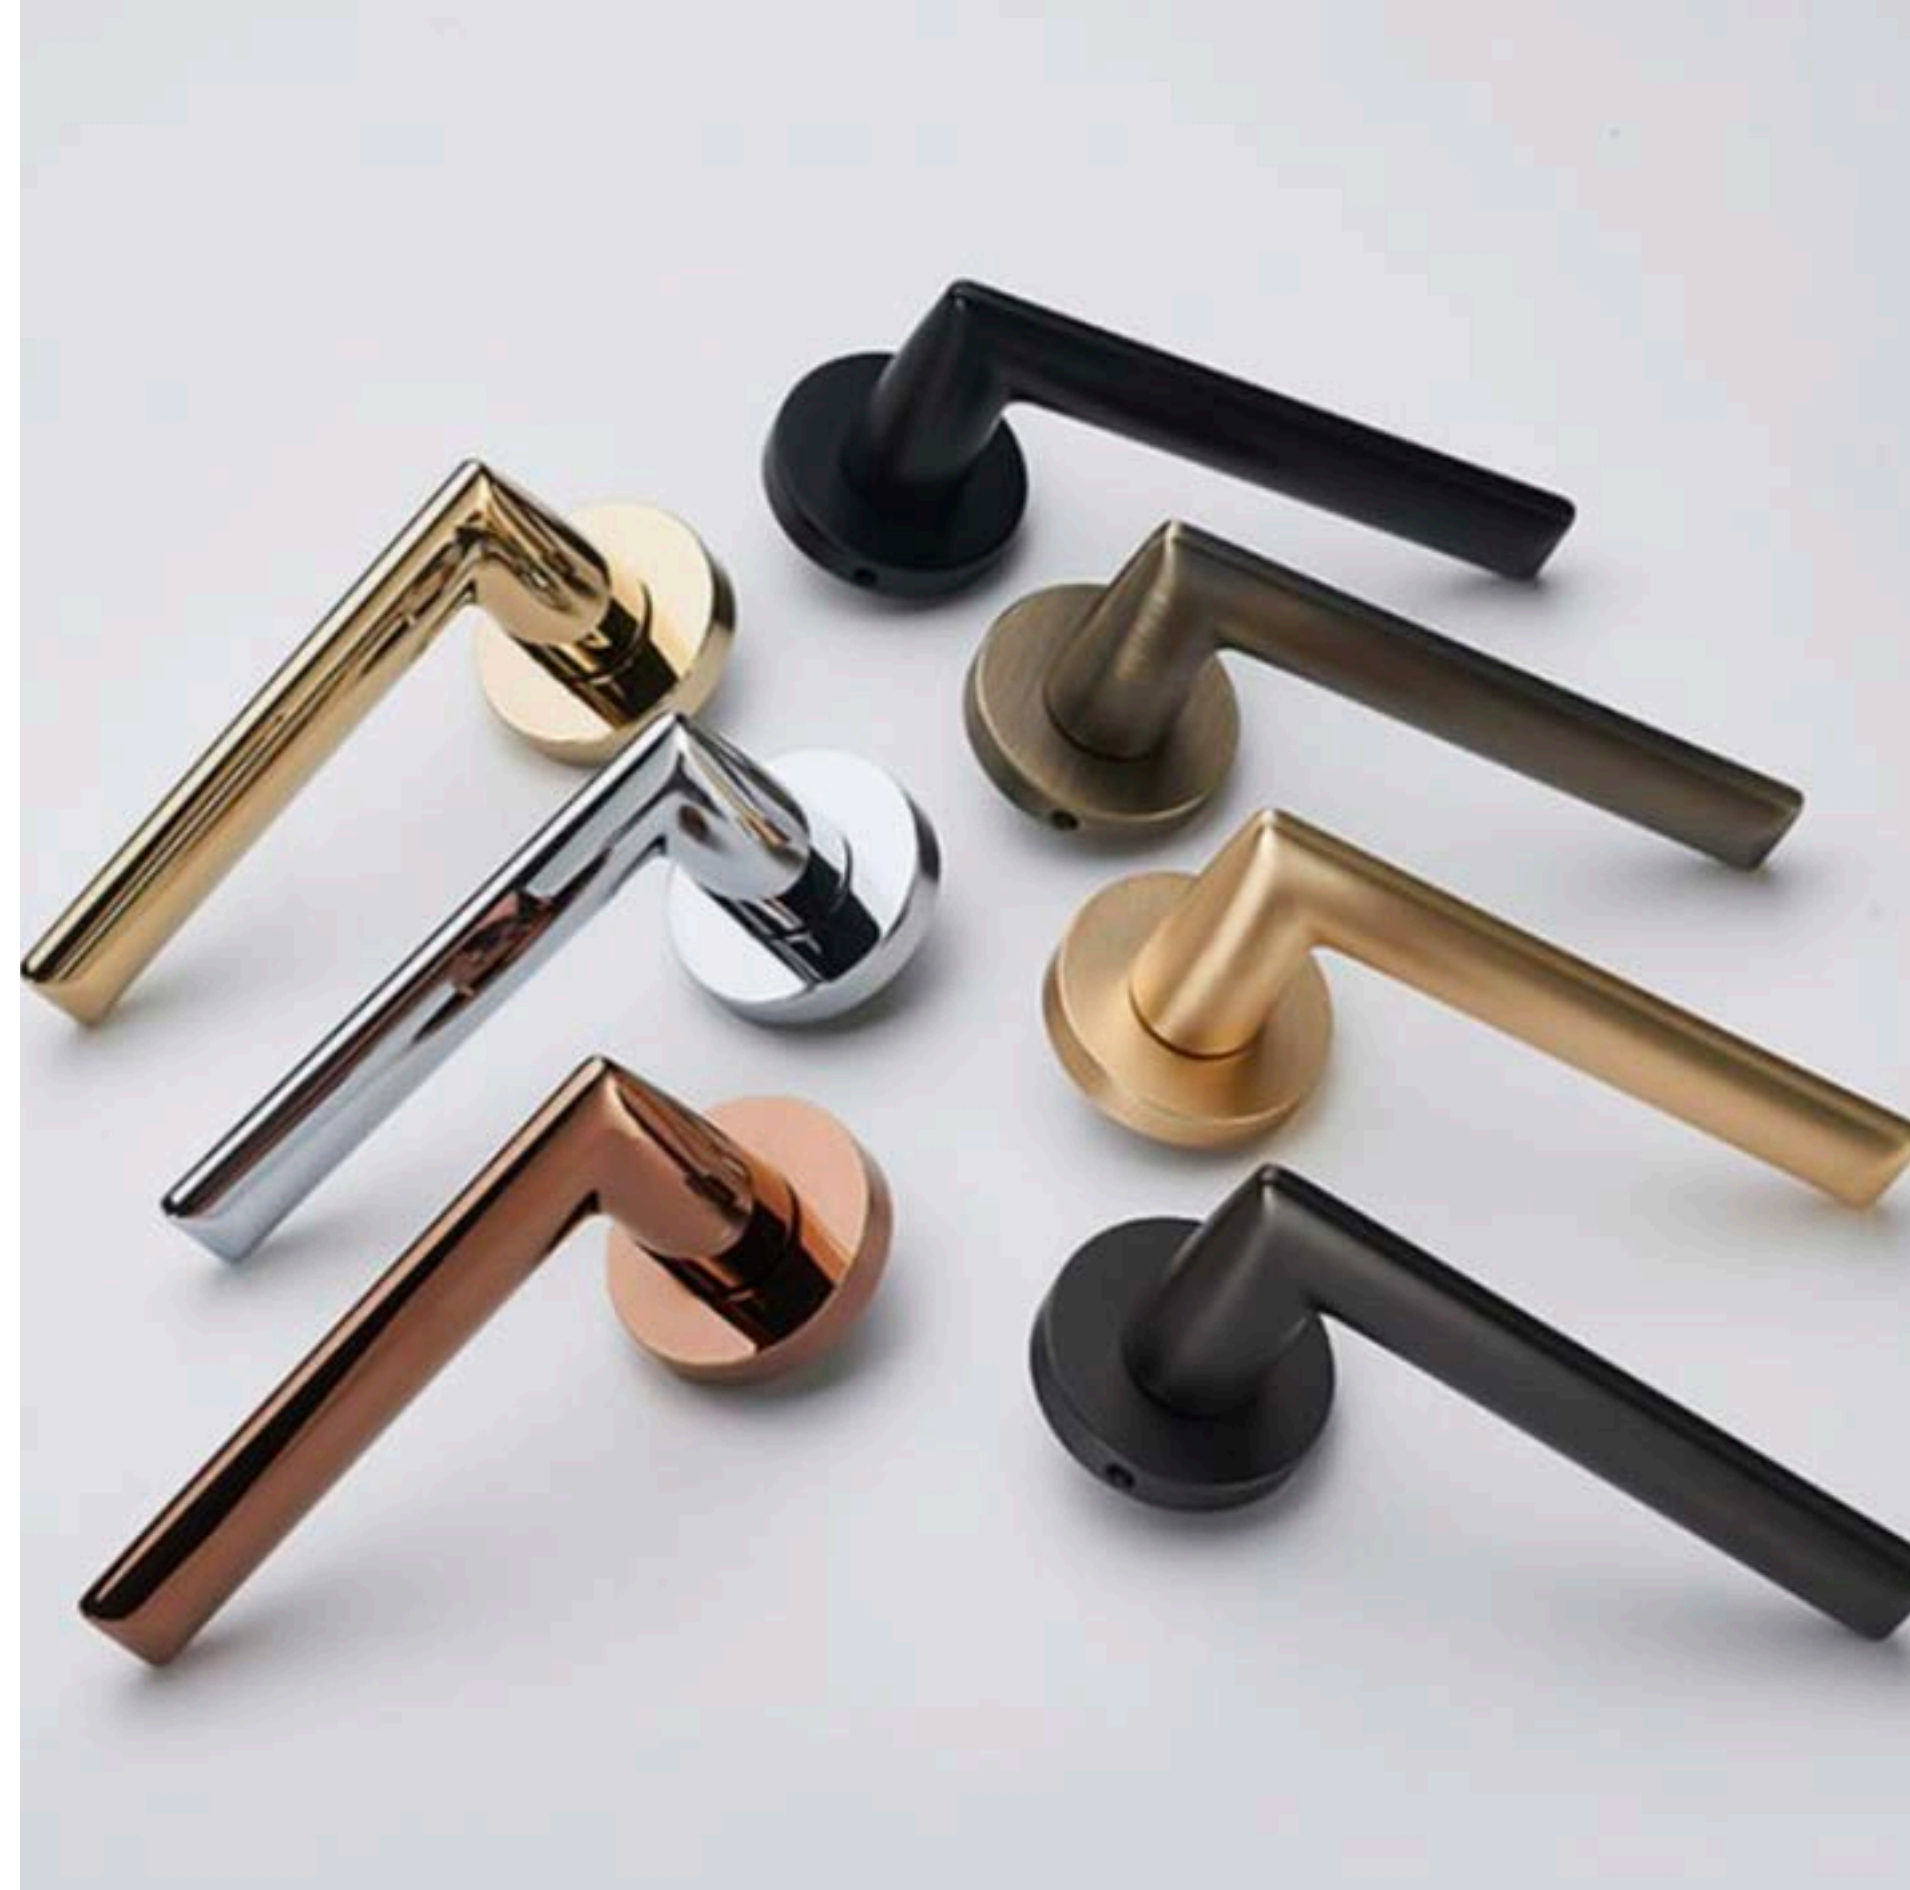

Types of HANDLES

STANDARD / PREMIUM

Hardware is the jewellery of any room. These luxury elements such as handles enhance a room's best features, compensate for any flaws, and create an interior that satisfies the eye, the sense of touch, and fulfils its practical role. Black Steel Doors offer a variety of handles that will reflect the period of your home and aspire to one consistent finish throughout your interior.

More handle options are available upon request.

Our products' COLOURS

We understand the importance of colour in interior design. Black Steel Doors offer Standard & Premium pallet of colours for an unlimited option of door design. Colours create harmony between rooms and allow you to create the atmosphere that you desire.

Types of BARS

ASTRAGAL

Adding bars to your door or window design is a great way to create an authentic traditional appearance. Despite their Georgian aesthetic, bars pair well with both classic and contemporary builds. Black Steel Doors offers two beautiful bar styles so you can select the perfect finishing touch to complement your design.

Our slim Astragal Bars add a touch of Georgian elegance to any design, striking an optimal balance between traditional style and modern practicality.

- Minimum steel - maximum glass
- Endless customization options
- Width: 20mm

Types of BARS

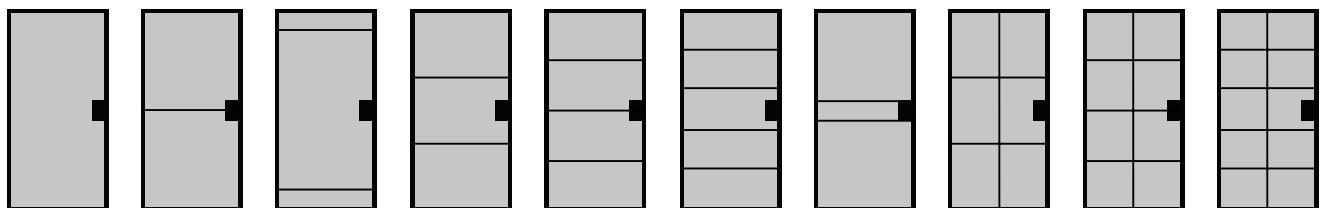

CONSTRUCTION

Construction Bars are an excellent choice for those looking to incorporate multiple glass types into a single design while maintaining a dimension of timeless elegance..

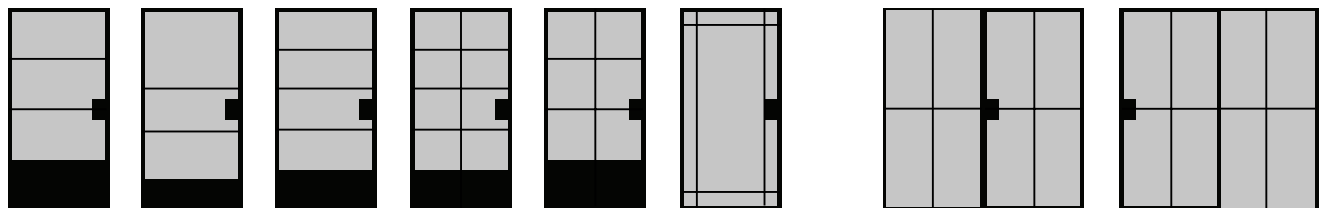

- Accommodates multiple glass types in one design
- Enhances security
- Width: 35mm
